

Millennium 3 Version 3.29.151.2262

This release will be installed for hosted clients after **11:00 pm EST on July 21st, 2021** and last approximately two to three hours, during which time Millennium hosted services will be unavailable. The update will be available for all clients to download from our secure FTP site on **July 22nd, 2021 after 8 am EST.**

The current release includes the following changes grouped by operational department:

Important Development Tags

System Update:

- COMP JobClass to Automatically Add Companies to VIP Downstream Site

Important Tax Development Tags

Form Updates:

- 2021 941 Quarterly Report [FITW]
- 2021 Kentucky Boone Return [KYBOONE]
- 2021 Virginia Withholding Monthly Report [VASITWM]
- Louisiana State Withholding [LASITW]
- Texas Unemployment Contribution [TXSUIC]

Development Tags

System Update:

- COMP JobClass to Automatically Add Companies to VIP Downstream Site
- Added Retry Logic to Process Server File Streaming

Report Update:

- Error Handling for Millennium Report Writer Jobs
- PPP Forgiveness Report (MPI_2021) Split Employee Section

Operations Development Tags

Report Update:

- Error Handling for Crystal Report Jobs
- Error Handling for Hard Coded Report Jobs

Tax Development Tags

Form Updates:

- 2021 941 Quarterly Report [FITW]
- 2021 Kentucky Boone Return [KYBOONE]
- 2021 Virginia Withholding Monthly Report [VASITWM]
- Louisiana State Withholding [LASITW]
- Texas Unemployment Contribution [TXSUIC]

ACH Update:

- Berks ACH Credit

Collector Updates:

- Delaware SUI
- Regional Income Tax Agency
- Virginia Unemployment Collector

E-File Updates:

- 2021 941 Quarterly Report [FITW41EFILE]
- 2021 Connecticut Paid Family Leave [CTPFLWEFILE]
- 2021 New Mexico Withholding Monthly Report [NMSITWMEFILE]

- Philadelphia, Pennsylvania Local
- Texas Obligation Rate

Report Updates:

- 2021 MPI_2021 PPP Forgiveness Report Update for Date Range
- 2021 MPI_2021 PPP Forgiveness Report Update for Money Field Font Size
- 2021 PPP Analysis Enhancement for Multipliers [MPI_2020]

System Updates:

- 2021 ARPA 941 Functions
- 2021 ARPA Health Insurance Expenses
- 2021 Payroll Manager Update to Include FFCRA/ARPA Credits

Tax Updates:

- Denver Colorado Description Change
- Kentucky Deposit Frequency
- Oregon Multnomah County Preschool For All

Development Tags

System: COMP JobClass to Automatically Add Companies to VIP Downstream Site (Dev Tag 59744)

When the E-COMP JobClass runs during payroll it will check to see if the company is already in the VIP Downstream site list. If not, it will add the company and enable a full download.

Report: Error Handling for Millennium Report Writer Jobs (Dev Tag 59609)

Added delayed retry to file copy on Millennium Report Writer jobs. Currently the report tries to copy the report file over once it has been generated. If this copy fails,

the system will automatically retry 20 times (once every half second). If the report fails the initial 20 retries the job will now wait for 15 seconds and try one final time. This is done in case the print driver or file are locked up due to heavy usage. If this final attempt fails, the progress log will display the appropriate error message. This new final retry can be configured on the properties of the job class. If you go the job class properties (System > Setup) you can add a new property named "CopyRetryInterval". The value you set for this property will be the number of seconds to wait prior to a retry. (If you set the value to -1 the system will skip the retry). If you do not enter the property on the job class, a default of 15 seconds will be used.

We have also added an ability to auto resubmit a failed report job. If a job fails due to problems opening the printer, getting a device context, or copying over the finished report the job can now be set to resubmit itself. To do this, you just need to add a new property 'MPAY_CONTROL_MAXRESUBMIT' to the job class (System > Setup > Job Classes) and set the value to the number of desired resubmit attempts (recommended is 1).

Report: PPP Forgiveness Report (MPI_2021) Split Employee Section (Dev Tag 59739)

Updated the PPP report to split employees into two groups. Those employees below the 100K threshold and those above, totals are provided for each sub-group.

System: Added Retry Logic to Process Server File Streaming (Dev Tag 59569)

Occasionally, when an M3 user previews a report, they receive an error about the report not existing even though the job has completed. When this happens, a user can actually go to the temp directory and find the report. We have added some basic retry logic to the process server file streaming so that it will try several times to find the report (waiting a little between each try). This way, if Windows (or some other process) has not released their hold on the file, we will be a little more fault tolerant.

Operations Development Tags

Report: Error Handling for Crystal Report Jobs (Dev Tag 59599)

Added a delayed retry to file copy on Crystal reports. Currently, the report tries to copy the report file over once it has been generated. If this copy fails, the system will automatically retry 20 times (once every half second). If the report fails the initial 20 retries the job will now wait for 15 seconds and try one final time. This is done in case the print driver or file are locked up due to heavy usage. If this final attempt fails the progress log will display the appropriate error message. This new final retry can be configured on the properties of the job class. If you go the job class properties (System > Setup) you can add a new property named "CopyRetryInterval". The value you set for this property will be the number of

seconds to wait prior to a retry. (If you set the value to -1 the system will skip the retry). If you do not enter the property on the job class a default of 15 seconds will be used.

We've also added an ability for job to finish in an error state if it has errors. Currently, printing errors result in warnings only -- unlike all the other report jobs. If you go to the job class properties (System > Setup) you can add a new property named "AllowJobToErrorOut". If you set this property to 1, the job will produce errors on printing instead of warnings.

And added the ability to auto resubmit a failed HC report job. If a job fails due to problems opening the printer, getting a device context, or copying over the finished report the job can now be set to resubmit itself. To do this you just need to add a new property 'MPAY_CONTROL_MAXRESUBMIT' to the job class (System > Setup > Job Classes) and set the value to the number of desired resubmit attempts (recommended is 1).

Report: Error Handling for Hard Coded Report Jobs (Dev Tag 59594)

The progress log will now report the printer name when the report opens the printer for output. In addition, if the report fails to open the printer or get a device context, the progress log will try to display the last system error message. It will no longer just display the message "Processor returned HRESULT...".

Added delayed retry to file copy on hard coded reports. Currently, the report tries to copy the report file over once it has been generated. If this copy fails the system will automatically retry 20 times (once every half second). If the report fails the initial 20 retries, the job will now wait for 15 seconds and try one final time. This is done in case the print driver or file are locked up due to heavy usage. If this final attempt fails, the progress log will display the appropriate error message. This new final retry can be configured on the properties of the job class. If you go the job class properties (System > Setup) you can add a new property named "CopyRetryInterval". The value you set for this property will be the number of seconds to wait prior to a retry. (If you set the value to -1 the system will skip the retry). If you do not enter the property on the job class, a default of 15 seconds will be used.

Also added an ability to auto resubmit a failed HC report job. If a job fails due to problems opening the printer, getting a device context, or copying over the finished report the job can now be set to resubmit itself. To do this, you just need to add a new property 'MPAY_CONTROL_MAXRESUBMIT' to the job class (System > Setup > Job Classes) and set the value to the number of desired resubmit attempts (recommended is 1).

Form: 2021 941 Quarterly Report [FITW] (Dev Tag 59574)

The 941 Quarterly Report [FITW] has been updated for 2021.

Form: 2021 Kentucky Boone Return [KYBOONE] (Dev Tag 59404)

The Kentucky Boone Return form has been updated for 2021.

(Released in 202107-1)

Form: 2021 Virginia Withholding Monthly Report [VASITWM] (Dev Tag 59679)

The Virginia Withholding Monthly Report has been updated for 2021.

(Released in 202107-1)

Form: Louisiana State Withholding [LASITW] (Dev Tag 59339)

The LASITW form has been updated to reflect the Q2 dates and months.

(Released in 202107-1)

Form: Texas Unemployment Contribution [TXSUIC] (Dev Tag 59349)

The Texas Unemployment form has been updated with a new form number.

(Released in 202107-1)

ACH: Berks ACH Credit (Dev Tag 59539)

The Berks ACH Credit has been updated so the FEIN is in the correct position.

Collector: Delaware SUI (Dev Tag 59689)

Delaware SUI Collector has been updated to:

DOL UI Tax Lockbox
P.O Box 5515
Binghamton, NY 13902

(Released in 202106-2)

Collector: Regional Income Tax Agency (Dev Tag 59724)

The collector(s) for the following Tax Codes has been updated to RITA:

West Alexandria
OH-WES4 (Emp)
OH-WESB (Res)

Rittman
OH-RIT1 (Emp)
OH-RIT2 (Res)

Gibsonburg
OH-GIB1 (Emp)
OH-GIB2 (Res)

Butler
OH-BUT1 (Emp)
OH-BUT2 (Res)

Regional Income Tax Agency
P.O. Box 94736
Cleveland, OH 44101-4736

(Released in 202106-2)

Collector: Virginia Unemployment Collector (Dev Tag 59614)

Virginia's Unemployment Collector has been updated:

VASUI

Virginia Employment Commission
PO Box 27592
Richmond, VA 23261-7592

(Released in 202106-1)

E-File: 2021 941 Quarterly Report [FITW41EFILE] (Dev Tag 59629)

The 2021 941 Efile has been updated to version 2021v3.0.

E-File: 2021 Connecticut Paid Family Leave [CTPFLWEFILE] (Dev Tag 59604)

The Connecticut Paid Family Leave efile has been updated for 2021.

(Released in 202107-1)

E-File: 2021 New Mexico Withholding Monthly Report [NMSITWMEFILE] (Dev Tag 59654)

The New Mexico Withholding Monthly Report has been updated for 2021.

(Released in 202107-1)

E-File: 2021 New Mexico Withholding Quarterly Report [NMSITWEFILE] (Dev Tag 59624)

The New Mexico Withholding Quarterly Report has been updated for 2021.

(Released in 202107-1)

E-File: 2021 New York Quarterly Combined Electronic Report [NYSUIWEFILE] (Dev Tag 59439)

The New York Quarterly Combined Electronic Report has been updated for 2021.

(Released in 202107-1)

Form: 2021 Minnesota Unemployment Quarterly Report [MNSUIC] (Dev Tag 58534)

The Minnesota Unemployment Quarterly Report has been updated for 2021 to include the reinstated Minnesota assessment tax.

Form: 2021 Minnesota Unemployment Quarterly Report [MNSUIC] (Dev Tag 59329)

The MNSUIC form has been updated so that the line totals are now rounded to the nearest whole dollar amount. The payments have been updated to reflect this rounding as well.

Form: Maine Unemployment MEAST Payment (Dev Tag 59324)

The Maine unemployment form has been updated to include the MEAST code in the payment. Once you sync you should Update Tasks on the Tax Status page to update the payment if you have not processed them yet. If you have already processed the payments, they will need to be updated in Payroll Manager by creating a deposit for the amount of the MEAST. Remember to keep the Create Check box checked off.

New Tax: Massachusetts Covid Assessment (Dev Tag 59729)

Massachusetts Covid Assessment code has been added to the system; it will be paid with Unemployment.

MAAST

This tax is not set with a rate because it does not apply to new employers. We are waiting on the specifications for the rate upload file from the state.

(Released in 202106-2)

(Released in 202106-2)

Rate: Texas Obligation Rate (Dev Tag 59774)

The Texas Obligation Rate has been updated to 0.0003.

(Released in 202107-1)

Report: 2021 MPI_2021 PPP Forgiveness Report Update for Date Range (Dev Tag 59364)

Updated the PPP Forgiveness Report to allow the users to run a covered period range up until 03/31/2021.

Report: 2021 MPI_2021 PPP Forgiveness Report Update for Money Field Font Size (Dev Tag 59499)

Updated the MPI_2021 PPP report to allow very large amounts to appear on the report in a smaller font size.

Report: 2021 PPP Analysis Enhancement for Multipliers [MPI_2020] (Dev Tag 59294)

Updated the MPI_2020 report to allow the user to customize the multiplier used for the maximum loan amount. This is to help accommodate the higher rate 3.5 for hospitality and service industries.

System: 2021 ARPA 941 Functions (Dev Tag 59554)

The 941 has been updated to add in functions related to ARPA changes.

System: 2021 ARPA Health Insurance Expenses (Dev Tag 59544)

M3 has been updated to support a separate payroll code for ARPA family leave health insurance expenses (earning type "Memo ARPA InsF"). The resulting 941 for quarter 2 and beyond has the insurance costs separated on page 2 between ARPA sick leave and ARPA family leave. We recommend that the amount used for health expenses related to ARPA family leave be moved over to this new earning type to ensure the 941 page 3 is accurate. Please note that this change does not impact any of the calculated tax or credit amounts -- just lines 24 and 27 on the 941.

In addition, to correspond with the above we have renamed the "Memo ARPA InsC" earning type to "Memo ARPA InsS" to relate to ARPA sick leave specifically.

(Released in 202106-1)

System: 2021 Payroll Manager Update to Include FFCRA/ARPA Credits (Dev Tag 59694)

M3 payroll manager allows the user to add a credit transaction type with a credit type of 'FFCRA' and 'ARPA'.

FFCRA's effective date through '2021-07-31' and ARPA's effective date through '2022-04-30'

Tax: Denver Colorado Description Change (Dev Tag 59399)

The description for the following Denver Colorado tax has been updated for clarification:

CO-DEN1

Description: EE Occup Priv Tax

CO-DEN2

Description: ER Occup Priv Tax

(Released in 202106-1)

Tax: Kentucky Deposit Frequency (Dev Tag 59384)

The deposit frequencies for Kentucky have been updated to stay static based on the frequency assigned to the company. Previously, they were set to move frequencies if certain thresholds were met.

(Released in 202106-1)

Tax: Oregon Multnomah County Preschool For All (Dev Tag 59379)

The OR-MPFA (Multnomah County Preschool For All) tax has been added to the system:

City of Portland - PIT Withholding
PO Box 9250
Portland, OR 97207-9250

<https://www.portland.gov/revenue/pfa>

Currently for 2021, this tax should only be applied to employees making over \$200,000.00 a year unless they have opted out. Please see the link form for more information.

(Released in 202106-1)
