PA-590305

Rate = 1.5%

System: SUI Audit Workflow Updated to Fix SecureView Issue (M3-336)

The SUI Audit Workflow now creates a Liability Audit Client Letter with a timestamp in the filename when sending to SecureView. This fixes an issue where the client letter would be overwritten if the workflow was run multiple times for the same company within the same quarter.

System Update: SecureViewTX JobClass Property Update for .NET Process Server (M3-273)

Additional properties have been added to support the .NET Process Server version of the SecureViewTX JobClass. More information will be communicated when the .NET Process Server is available to Licensees.

System Update: MailClient JobClass Property Update for .NET Process Server (M3-331)

An existing MailClient job property for overriding the Hostname has been exposed to the MailClient Job Class property UI. This setting is helpful for Licensees having issues with their SMTP server getting blacklisted.

New Use SSL feature that is only available for the .NET Process Server has also been added. More information will be communicated when the .NET Process Server is available to Licensees.
