System Update: Added New SOC Field to the Employee Demographic Page (M3-580)

We added a new field called SOC (Standard Occupational Classification Code) to the employee demographic page. It will need to be manually updated for the Washington Unemployment Efile next quarter.

System Update: Ability to Assign State to Sales Tax Code (M3-538)

There is now an ability to assign a State to a Sales Tax Code. This is for informational purposes only and has no functionality behind it.

System Update: Added Work Location to the Add Employee Page (M3-587)

Added the new Work Location field to the Add Employee Screen. This field has replaced the Work State field. However, the EInfo.WorkState value will still be updated based on the selection of the new Work Location field. Any employee import tools should still work that have not been updated for the Work Location field, as the Employee Creator object has been updated to expect blank/null values for that field.

System Update: Added Work Location to the Employee Tax Tab (M3-589)

New Work Location functionality has been added to Millennium. You can now configure where the employee's work location address gets pulled from based on Company Address, Employee Address, or CC1 - CC5 Address (based on the employee's home department). By default, all employees will be assigned to the "Use Company Default" option which is defined on the Master Company Setup > Defaults tab.

This new Work Location field will eventually replace Work State which has been moved to the employee's Status/Position tab.

While this Work Location field has no functionality behind it in this release it will be used in future enhancements to the system.

System Update: Arkansas Withholding (M3-600)

The Arkansas tables have been updated for the temporary low-income table

starting on 10/1/22 and running until 12/31/2022. In January, the tables will revert to what they were prior to October 1st, 2022.

System Update: Billing Product Sales Tax Override (M3-536)

A company's billing products can now be overridden to calculate at a different sales tax rate than what is set on the invoice. A new Sales Tax Override drop down was added to the Master Company Setup > Billing > Details section of Millennium.

System Update: Fixed NACHA Issue on Direct Deposit Screen (M3-560)

We have fixed a bug on the employee direct deposit screen where the masked account number was showing up next to the bank name on file.

System Update: New Columns Added to Invoice Details (M3-537)

Two new columns have been added to the Invoice Details sub-tab (System > Controller > Invoices > Details) that display the Sales Tax Code used on a billing product, as well as the tax amount calculated. You can change the Sales Tax Code and click the Recalculate button to recalculate the whole invoice with the new overridden tax rate for the product.

System Update: Roth IRA (M3-529)

Roth IRA has been added as an option for a deduction type.

System Update: Work Location Company Default (M3-533)

A new Work Location field was added to the Employee Tax tab. All employees will be assigned to the "Use Company Default" option with is defined by a new Employee Work Location Address field on the Master Company Setup > Defaults tab.
