Increased Width of the Smart Search (PENG-112)

To improve the usability of NextGen’s Smart Search when working with longer company and employee names, we have increased the width of the search box and the result set. This change reduces the likelihood that a company or employee name gets truncated.

Moved the Work State Field to the Employee Department Page (PENG-115)

The employee Work State field has been moved from the employee Tax Details page to the employee Department page, under the Position section.
